Policy on Development & Approval of New Courses

To provide guidelines on the preparation of schedule for new programs, changes in intake for existing programs and obtaining the approval for the same from AICTE & other bodies, FISAT has a policy on Development and Approval of New Courses.

Considering the market demand and competitors activities and performances, decisions regarding new programs are to be taken at the appropriate time. The decision for new courses or changes in intake of existing courses is made in consultation with Chairman, Principal and H.O.Ds. The Proposal is then made to AICTE for approval of new course/changes in intake with intimation to the Government and University.

A no-objection certificate shall be obtained from the University and Government. AICTE approves the proposal after an inspection committee gives its consent. The Government gives the ratification after the inspection by the committee appointed by them. Courses to be started only after getting affiliation from the University. After the approval is obtained from the government and AICTE for additional courses with existing curriculum, necessary follow-up activities shall be done
