## **Policy on Research including Publication Policies**

FISAT strives to establish and maintain a research integrity culture supported by robust policies and procedures.

- Researchers adhere to the University rules for Ph.D work
- Institution upholds a research environment of intellectual honesty and integrity
- Researchers should obtain necessary written approvals from suitable committees
- Faculty and research scholars should preserve research data and records to be accessible to others according to fair legal, ethical, data sharing, and open access principles.
- The institution maintains the confidentiality of research data and primary materials where the right to use has been given on a confidential basis
- Faculty or research scholars distribute all research findings as precisely and successfully as possible, subject to restrictions applicable to intellectual property.
- Faculty or research scholars should recognize and acknowledge contributions from persons and all financial and in-kind support sources for the research.
- Faculty or research scholars should obtain written permission before publication from all authors
- Faculty or research scholars should reveal at the time of submission whenever considerably similar work is submitted to more than one publisher or work related to that submitted is already published.
- Faculty members should carry out peer reviews fairly and appropriately.
