FEDERAL INSTITUTE OF SCIENCE AND TECHNOLOGY (FISAT)[®]

Policy on Information Technology (IT) Facility

The Federal Institute of Science and Technology (FISAT) is committed to providing its staff members and students with all the necessary resources for teaching and learning. Therefore, enough computers and all the required software are made available in the laboratories.

Staff and students are encouraged not to save any important information on lab computers. Use owncloud.fisat.edu storage account or FISAT G Suite to protect the data.

- The maximum file size supported on owncloud.fisat.edu is 1GB. If any more space is required, a request may be submitted to the System Manager.
- Downloading copyrighted material is prohibited, including games, music, and movies.
- Installation of P2P software or any other application to share the files in the network is strictly prohibited.
- If the user requires any other software to be installed as part of their work, it may be requested by the System Manager.
- Personal files are the user's responsibility; User must take a backup if required to the remote storage facilities such as owncloud.fisat.edu storage account or FISAT G Suite.
- Users must log their names in each lab facility's entry/exit register to record their movements.
- Labs are monitored using CCTV facilities. Any misconduct can lead to action corresponding to the institution's policies.
- Internet connection with an assured bandwidth of 2 Mbits/s is available on all computers in the facility. Social networking sites and related websites are blocked on the computers; if the user requires any sites for academic purposes, they may contact the staff in charge of the facility.
- Portable storage facilities such as USB flash drives or HDD are not allowed. If any users require to use the same, they may contact the staff in charge.
- Users are permitted to access the wired network of the campus only through the computers available in the Facility.
- Users can bring their personal laptop computers to the facility, but physical access to the network is strictly prohibited. They are allowed to connect their devices to the FISAT wireless network.
- Security of personal devices such as laptops and mobile phones is the individual user's responsibility.
- Users cannot play movies/ music, use games, or video/voice chat on their devices inside the facility.
