& NAAC with 'A' Grade

FEDERAL INSTITUTE OF SCIENCE AND TECHNOLOGY (FISAT)[®]

Policy on Divyangjan

Right of Persons with Disabilities Act, 2016 prohibits discrimination against individuals with physical and mental disabilities.

The Federal Institute of Science and Technology (FISAT) is committed to ensuring an inclusive culture, avoiding bias, exclusion, or exploitation of differently-abled persons, and strives to provide accessible and inclusive education to differently-abled students.

The institution also ensures opportunities for the active participation of such persons and provides them with equal development opportunities. FISAT aims to make all the services and activities accessible to and usable by all, including the differently-abled persons. The entire FISAT fraternity shares the responsibility of helping the differently-abled to secure the benefits of activities in the institution.

The institution also endeavours to create awareness about the specific educational and general needs of persons with disabilities. The institution has created special facilities like lifts, ramps, rails, and special toilets to help these students access all the facilities in the institution.

Special devices like computers with screen reading software that will augment the learning experiences of differently-abled persons are also made available for their use. Wheelchairs are also available for use by differently-abled persons. A particular parking slot with easy access to the ramp and lift is allotted for persons with disabilities. A help desk for assistance for such persons is also available.
